Bonding of Subcontractor

SUBCONTRACTOR DEFAULT INSURANCE (SDI)

- SDI is comprehensive insurance maintained by AHCB Joint Venture for the performance default of any subcontractor.
- It replaces the need for subcontractor performance and payment bonds.
- Subcontractors and bidders must be pre-qualified.
- Prequalification includes detailed review of the subcontractor's operations, relevant experience, financial status, and safety record.

BENEFIT

May not impact Subcontractor's bonding capacity.

Insurance Requirements

OWNER CONTROLLED INSURANCE PROGRAM (OCIP)

The OCIP provides the following insurance for all Eligible Subcontractors, regardless of tier, that are approved for participation in the insurance program:

- Commercial General/Excess Liability
- Workers Compensation & Employers Liability
- Builders' Risk
- Contractors Pollution Liability

If eligible, Subcontractor shall enroll in the Owner's Controlled Insurance Program ("OCIP") applicable to the Project upon execution of the Subcontract and maintain enrollment in the OCIP and shall require all of its eligible sub-subcontractors of any tier to enroll in the OCIP.

OCIP Coverages shall not apply to ineligible parties or to Work performed off-site.

STANDARD SUBCONTRACT - QUALITY ASSURANCE / QUALITY CONTROL

QUALITY ASSURANCE

Quality assurance can be defined as "part of quality management focused on providing confidence that quality requirements will be fulfilled." The confidence provided by quality assurance is twofold—internally to management and externally to customers, government agencies, regulators, certifiers, and third parties.

QUALITY CONTROL

Quality control can be defined as "part of quality management focused on fulfilling quality requirements." While quality assurance relates to how a process is performed or how a product is made, quality control is more the inspection aspect of quality management.

STANDARD SUBCONTRACT - QUALITY ASSURANCE / QUALITY CONTROL

- Specification 01 4000 is the presiding technical specification concerning the Contractor Quality Control & CMR Quality Assurance Program for these (and all future) trade packages. The contractor is responsible for ensure that quality, conforming work is put in-place while the CMR will provide assurance oversight of the quality control plan. Further, the Owner will participate in the quality assurance oversight by means of an Independent Test Agency.
- The contractor will be responsible for preparing and submitting for approval the Contractor's Quality Control Plan during mobilization. This plan must address each and every component of the work. Approval of this plan is required prior to the initiation of construction activities or installation of the work.
- The contractor will be required to on-site and physically present quality oversight during installation of the work – this is a mandatory requirement of the Contractor's Quality Control Plan. The contractor's Quality Assurance Manager will report to a company executive having oversight of the project, i.e., not the project manager.
- Where in the technical specifications the terms "Owner" and "Independent Testing" are used, these terms shall be understood to mean these quality actions are the responsibility, to include but not limited to performance, scheduling and cost, of the Contractor and thereby must be included in the Contractor's Quality Control Plan.
- Frequency of testing or quality testing by the Contractor should be performed in accordance with the latest version of IDOT Standard Specifications for Road and Bridge Construction.

Labor Relations

23.1 Labor Matters

STANDARD SUBCONTRACT – WORKFORCE COMMITMENTS

An Anticipated Workforce Projection form is required as a part of each contractor's initial documentation submission, detailing the categories anticipated to be hired on the project. This information will be utilized to determine where hiring opportunities are available for each contractor.

The Contract requires compliance with Chicago Residency Ordinance, Section 2 92 330 of the Chicago Municipal Code and Part Two City General Conditions and Procedures of the Contract Documents.

**CITY OF CHICAGO
RESIDENCY**

50%

**PROJECT AREA
WORKER REQUIREMENT**

60646, 60656, 60706, 60707**

STANDARD SUBCONTRACT – PREVAILING WAGES/CERTIFIED PAYROLL

Contractor shall comply with prevailing wage standards applicable to the Project as set forth by the City of Chicago Multi-Project Labor Agreement.

Cook County, Illinois - Prevailing Wages

Contractor shall be solely responsible to accurately document the Union affiliation, associated hourly wage rate and fringe benefits commensurate with the duties being performed by each of its workers.

All prime contractors and their tier subcontractors are required to utilize the HeadCount system for:

- payroll tracking
- weekly certified payroll reports
- Apprentice documentation

All prime contractors and their tier subcontractors will receive:

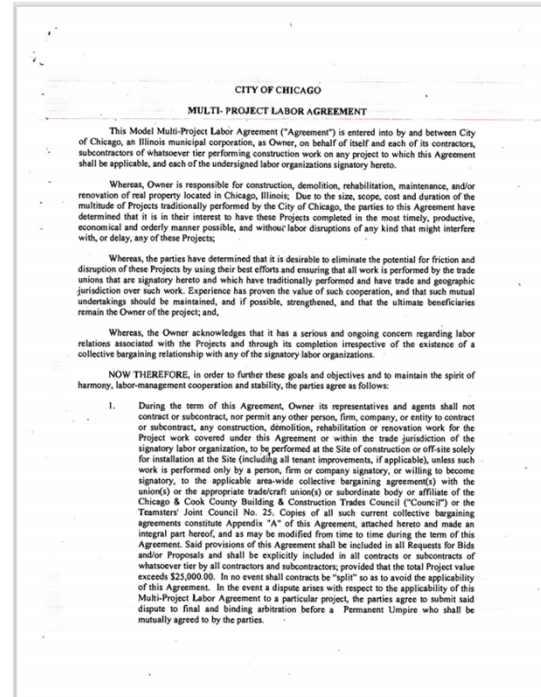

- system training
- Contractor Setup Form
- Worker Detail Form(s)
- RFID badge(s)

STANDARD SUBCONTRACT – MULTI-PROJECT LABOR AGREEMENT

This project is governed by the Multi-Project Labor Agreement as detailed in the Master Agreement. Contractor acknowledges that any lower tier Subcontractor or material supplier that is utilized by Contractor shall be obligated to all the terms and conditions that are addressed in the Terms and Conditions of this Subcontract.

STANDARD SUBCONTRACT – MBE & WBE PARTICIPATION

The MBE and WBE Contract Specific Goals established at the time of Contract bid also apply to any modifications to the Contract after award.

All MBEs and WBEs must be certified with the City of Chicago or Cook County in the area(s) of specialty listed (NAICS).

Only the value of the dollars paid to the MBE or WBE firm for work that it performs in its Area of Specialty in which it is certified counts toward meeting the Contract Specific Goals.
